

WHAT IS AN AQUA-CHI?

It's a noninvasive, water based energy system designed to increase energy levels in living things.

WATER ... No Type of Life Could Exist Without it

The Aqua-Chi Model 5400 FB Hydro-stimulation Spa is a state of the art, bio-energy charger.

The system is designed to operate with water because water is the basis of all biological function. There are many different types of cells in the body and they all have a number of things in common. They all need water for hydration AND energy to perform their designated tasks. With the depletion of either water OR energy, the cells are deprived and poor health can result.

The system works through the medium of water by making available **EXTRA ENERGY** that the living cell can utilize. There are many water sources around the world that are reported as having invigorating effects on the body when bathed in. These waters are naturally charged and give up some of their charge to the body on contact. This is the fundamental process utilized by the Aqua Chi; the transference of energy through water.

"I started using the Aqua Chi Footbaths at CAPPED to help me regain my energy and strength both during and after chemo therapy. My energy level increased dramatically from the first footbath session. I took the footbaths once or twice a week for several months. Last week I danced with my sweetheart again — for the first time in years!"
"Thank you CAPPED!" Please sign me as - Very Thankful!

VISIT CAPPED'S IONIC FOOTBATH CENTER TODAY AND "GET ENERGIZED!"

The Aqua-Chi Footbath System takes AC current from the wall and converts it to DC current. This current then travels through the wires to the module in the footbath water. The array in the module breaks the current into tiny particles of electricity called "ions" that are available for your cells to use. Aqua-Chi Footbaths are available at CAPPED, Inc. from 10-5 p.m. Monday—Friday. For cancer patients there is no charge. For others, regular price is only \$35 per session. Monthly Specials Too!
